There has been a lot of talk regarding our boiler. Basically, we have repaired all of the outside components that needed to be repaired. However, the boiler is currently leaking a lot of water and John Fuzi and Don Tholen have been asked to look into it. John Fuzi removed the metal siding and the pictures below are what the inside looks like. As you can see, the boiler will most likely not be able to be repaired but will need to be replaced. For questions, please talk to Dawn, Ann, or John Fuzi.

THE CATHEDRAL CONSERVATION COLLECTION

Please consider donating to the Diocese CCC which will run through February 17th. You will find the envelopes in the pews. Funds from this collection will help with the boiler replacement.
